TABLE OF CONTENTS

Power BI Technical Documentation — Appointment Insights and Trends Report

1. Report Theme

- 1.1 Canvas Background
- 1.2 Core Palette
- 1.3 Backgrounds & Structure
- 1.4 Text Colours
- 1.5 Power BI Theme Colours (8-Slot Palette)
- 1.6 Typography

2. Data Sources

- 2.1 Loaded Tables
- 2.2 Created / Reference Tables
 - 2.2.1 Calendar Table
 - 2.2.2 Appointment Status Table
 - 2.2.3 Insurance Company Table
 - 2.2.4 VisitType Table
 - 2.2.5 InsuranceEligibilityType Table
 - 2.2.6 Added Manually Table
 - 2.2.7 Doctors Table

3. Data Transformations

- 3.1 Branches Table
- 3.2 Countries Table
- 3.3 Departments Table
- 3.4 Employees Table
- 3.5 Users Table
- 3.6 Patients Table
- 3.7 Appointments Table (Fact Table)
- 3.8 Appointment History Table

4. Data Modelling

5. Key Performance Indicators (Measures)

6. Report Pages & Visualizations

- 6.1 Healthcare Appointment Insights Dashboard
 - 6.1.1 Dashboard Header (Text Card)
 - 6.1.2 Navigation Buttons
 - 6.1.3 Slicers
 - 6.1.4 KPI Cards
 - 6.1.5 Charts
- 6.2 Healthcare Appointment Trends Dashboard
 - 6.2.1 Dashboard Header (Text Card)
 - 6.2.2 Navigation Buttons
 - 6.2.3 Slicers
 - 6.2.4 KPI Cards
 - 6.2.5 Charts

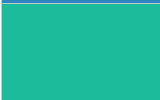

1. Report Theme

1.1 Canvas Background

All report pages use a canvas background colour of #D0DCE8 (Page Background) applied in Power BI Desktop under View → Page Background. Card and visual backgrounds use #FFFFFF, with gridlines and axis lines rendered in #BFC9CA.

1.2 Core Palette

The following core colours are applied consistently across status indicators, KPI conditional formatting, chart series, and trend lines to maintain a unified visual language throughout the report.

Swatch	Hex Code	Colour Name	Usage
	#1A5276	Navy	Active navigation button, slicer shape, table header, accent bar, 2024 line
	#2E86C1	Blue	Bar charts, Non-Referral donut segment, 2025 line
	#1ABC9C	Teal	Referral donut segment, Completed status, 2026 line
	#1E8449	Green	Attended status; Attendance Rate & Referral Rate KPI (positive); positive growth bars
	#D4AC0D	Amber	Scheduled status; Attendance Rate & Referral Rate KPI (warning)
	#7D6608	Dark Amber	Average Wait Time KPI
	#C0392B	Red	Cancelled status; Cancelled KPI; Attendance/Referral KPI (negative); negative growth bars
	#922B21	Dark Red	No Show status
	#5D6D7E	Gray-Blue	Arrived status
	#AED6F1	Light Blue	Secondary bars, area fill base

1.3 Backgrounds & Structure

Swatch	Hex Code	Element	Usage
	#D0DCE8	Page Background	Report canvas / page background colour
	#FFFFFF	Card Background	Visual and card background colour
	#BFC9CA	Gridlines / Axis	Gridlines and axis line colour
	#1A5276	Shadow	Drop shadow colour applied to cards and shapes

1.4 Text Colours

Swatch	Hex Code	Element	Usage
	#000000	Black	Visual titles, page title/subtitle, axis labels
	#444444	Dark Gray	Visual subtitles, KPI labels
	#FFFFFF	White	Table header text

1.5 Power BI Theme Colours (8-Slot Palette)

The following 8-color theme is configured in Power BI under View → Themes → Customize Current Theme → Name and Colours, ensuring all default chart series automatically align with the core palette.

Slot	Hex Code	Swatch
Colour 1	#2E86C1	
Colour 2	#1E8449	
Colour 3	#C0392B	
Colour 4	#D4AC0D	
Colour 5	#1A5276	
Colour 6	#1ABC9C	
Colour 7	#5D6D7E	
Colour 8	#AED6F1	

1.6 Typography

Element	Font Family	Size & Style
Dashboard Title	Segoe UI	20pt, Black, Bold
Dashboard Subtitle	Segoe UI	11pt, Black, Bold
Chart Title	DIN	14pt, Black, Bold Italic
Chart Subtitle	Segoe UI	10pt, #444444
Slicer Header	DIN	11pt, White
Slicer Values	Segoe UI	8pt, Black
Data Labels	Segoe UI	9pt, Black, Bold
KPI Category Label	Segoe UI	12pt, #444444
KPI Value	Segoe UI Semibold	22pt, Bold
Table Column Headers	Segoe UI	9pt, White on #1A5276
Table Values	Segoe UI	11pt, #1C2833, Bold

2. Data Sources

2.1 Loaded Tables

The following tables are loaded directly from the source system into the Power BI data model:

#	Table Name	Type
1	Appointments	Fact Table
2	Branches	Dimension Table (D)
3	Countries	Dimension Table (D)
4	Departments	Dimension Table (D)
5	Patients	Dimension Table (D)
6	Users	Dimension Table (D) — staging source
7	Employees	Dimension Table (D) — staging source
8	UserDepartments	Bridge Table
9	Appointment History	Fact Extension Table

2.2 Created / Reference Tables

The following dimension and reference tables were created within Power BI to enrich the data model:

2.2.1 Calendar Table

A date dimension table generated programmatically from the Patients table using the minimum and maximum values of Appointments [AppointmentDate]. It provides date hierarchies (Year, Quarter, Month Name, Day) to support time-intelligence analysis.

2.2.2 Appointment Status Table

ID	Description
1	Confirm
2	Completed
3	Cancelled
4	Arrived
5	Schedule

6	No Show
7	Attended

2.2.3 Insurance Company Table

ID	Insurance Company
1	GULF UNION AL AHLIA COOPERATIVE INSURANCE
2	SAUDI ARABIAN COOPERATIVE INSURANCE CO. (SAICO)
3	BUPA Insurance Company
4	Medgulf Life
5	United Cooperative Assurance
6	Metlife AIG ANB Cooperative Insurance Company
7	Al-Etihad Co-operative Insurance Co - TCS
0	Cash

2.2.4 VisitType Table

ID	Description
1	New Patient
2	New Visit
3	Follow-up
0	Unknown

2.2.5 InsuranceEligibilityType Table

ID	Description
1	Cash
2	Insurance

2.2.6 Added Manually Table

ID	Description
----	-------------

1	Walk-in
0	Schedule

2.2.7 Doctors Table

Doctors was established as a core Dimension Table by executing a 1:1 merge of the Users and Employees tables to consolidate identity and credential profiles.

3. Data Transformations

All transformations are applied in Power Query (M language) before data is loaded into the model.

3.1 Branches Table

- Renamed "BranchNameEn" to "BranchName".
- Removed unnecessary columns not relevant to the analytical model.

3.2 Countries Table

- Removed the "CountryNameArabic" column.
- Renamed "CountryNameEnglish" to "Country".

3.3 Departments Table

- Renamed "DepartmentTitleEn" to "DepartmentTitle".
- Sorted rows in ascending order.
- Removed unnecessary rows (rows 1–48).
- Shortened "DepartmentTitle" values using Text Between Delimiters.
- Trimmed "DepartmentTitle" column to remove leading and trailing spaces.
- Removed unnecessary columns not relevant to the analytical model.

3.4 Employees Table

3.4.1 Gender Column — Value Replacement

Original Value	Replaced With
1	Male
2	Female

- Removed unnecessary columns not relevant to the analytical model.
- Merged with the Users table using a one-to-one relationship to create the consolidated Doctors table. After validating the merged output, this table was disabled from report loading and retained only as a staging/query source.

3.5 Users Table

- Removed unnecessary columns not relevant to the analytical model.
- Merged with the Employees table using a one-to-one relationship to create the consolidated Doctors table. After validating the merged output, this table was disabled from report loading and retained only as a staging/query source.

3.6 Patients Table

- Removed blank rows to ensure data integrity.
- Capitalized the "Patient Name" column.

3.6.1 Gender Column — Value Replacement

Original Value	Replaced With
1	Male
2	Female

- Removed unnecessary columns not relevant to the analytical model.

3.7 Appointments Table (Fact Table)

3.7.1 Date & Time Engineering

- Created a "Time" column derived from the AppointmentDateTime column.
- Renamed columns: "Time" → "AppointmentTime"; "AppointmentDateTime" → "AppointmentDate".
- Changed the "AppointmentDate" column type to Date.
- Created an "Hour" column derived from AppointmentTime.

3.7.2 Hour Range Classification

An Hour Range classification column is derived from the Hour column using the following conditional logic:

Condition	Hour Range	Hour Range Sort
Hour <= 5	0-5	1
Hour <= 11	6-11	2
Hour <= 17	12-17	3
Else	18-23	4

3.7.3 Hour Window — Custom Column

Created using the following M formula:

```
Hour Window = Text.From([Hour]) & "-" & Text.From(Number.From([Hour]) + 1)
```

- Changed "Hour Range", "Hour Window", and "Hour Range Sort" column types to Number.

3.7.4 IsReferral Column — Value Replacement

Original Value	Replaced With
1	Referral
0	Non-Referral

- Removed unnecessary columns not relevant to the analytical model.

3.8 Appointment History Table

- A Pivot Column transformation was applied to the "Status" column using "CreationDate" values to dynamically generate distinct column headers for each appointment state.
- Removed unnecessary columns not relevant to the analytical model.
- A Group By aggregation was applied to condense data granularity to a single row per unique AppointmentVisitID.
- Renamed columns: "Arrived" → "Arrival Time"; "Attended" → "Attended Time".

3.8.1 Wait Time — Custom Column

Created using the following M formula:

```
Wait Time =  
if [Arrival Time] <> null and [Attended Time] <> null  
then [Attended Time] - [Arrival Time]  
else null
```

- Changed the "Wait Time" column type to Duration.

3.8.2 Wait Time (Minutes) — Custom Column

Created using the following M formula:

```
Wait Time (Minutes) = Duration.TotalMinutes([Wait Time])
```

- Changed the "Wait Time (Minutes)" column type to Number.

4. Data Modelling

The data model follows a star schema design, with the Appointments fact table at the centre connected to multiple dimension and bridge tables. Most relationships use One-to-Many cardinality with Single cross-filter direction; the UserDepartments bridge table uses a Many-to-Many relationship (highlighted below) where UserDepartments filters Appointments.

From Table	From Column	To Table	To Column	Cardinality	Cross Filter
Appointments	AppointmentVisitID	Appointment History	AppointmentVisitID	One-to-Many	Single
AddedManually	ID	Appointments	AddedManually	One-to-Many	Single
Calendar Table	Date	Appointments	AppointmentDate	One-to-Many	Single
Appointment Status	id	Appointments	Appointmentstatus	One-to-Many	Single
Departments	DepartmentID	Appointments	DepartmentID	One-to-Many	Single
Insurance Company	id	Appointments	InsuranceCompanyID	One-to-Many	Single
InsuranceEligibilityType	id	Appointments	InsuranceEligibilityTypeID	One-to-Many	Single
Patients	PatientID	Appointments	PatientID	One-to-Many	Single
UserDepartments	UserID	Appointments	UserID (Doctor)	Many-to-Many	Single
Doctors	UserID	Appointments	UserID (Doctor)	One-to-Many	Single
VisitType	id	Appointments	VisitType	One-to-Many	Single
Branches	BranchID	Departments	BranchID	One-to-Many	Single
Countries	CountryID	Patients	Country	One-to-Many	Single

5. Key Performance Indicators (Measures)

The following 22 DAX measures are defined in the data model and are used across both report pages:

Measure	DAX Expression	Description
1. Total Appointments	COUNT (Appointments[AppointmentVisitID])	Count of all appointment records
2. Patients Seen	DISTINCTCOUNT (Appointments[PatientID])	Count of unique patients
3. Walk-In Appointments	COALESCE (CALCULATE ([Total Appointments], AddedManually[ID]=1), 0)	Count of manually added (walk-in) appointments
4. Scheduled Appointments	COALESCE ([Total Appointments] - [Walk_In Appointments], 0)	Excludes walk-in appointments
5. Completed Appointments	COALESCE (CALCULATE ([Total Appointments], 'Appointment Status'[id]=2), 0)	Count of completed appointments
6. Attended Appointments	COALESCE (CALCULATE ([Total Appointments], 'Appointment Status'[id]=7), 0)	Count of attended appointments
7. Cancelled Appointments	COALESCE (CALCULATE ([Total Appointments], 'Appointment Status'[id]=3), 0)	Count of cancelled appointments
8. No Show Appointments	CALCULATE ([Total Appointments], 'Appointment Status'[id]=6)	Count of no-show appointments
9. Attendance Rate	DIVIDE (Completed_Scheduled + Attended_Scheduled, [Scheduled Appointments])	Attendance percentage of scheduled appointments
10. Cancelled %	COALESCE (DIVIDE ([Cancelled Appointments], [Total Appointments]), 0)	Cancellation rate
11. No Show %	COALESCE (DIVIDE ([No Show Appointments], [Total Appointments]), 0)	No-show rate
12. Referral Rate	DIVIDE (Referral_Appointments, [Total Appointments])	Percentage of referral appointments
13. Returning Patients %	COALESCE (DIVIDE (returning_patients, DISTINCTCOUNT (Appointments[PatientID])), 0)	Percentage of patients with multiple visits
14. New Patient Visits	CALCULATE ([Total Appointments], VisitType[id]=1)	Count of new patient visits
15. New Visits	CALCULATE ([Total Appointments], VisitType[id]=2)	Count of new visits
16. Follow Up Visits	CALCULATE ([Total Appointments], VisitType[id]=3)	Count of follow-up visits
17. Avg Wait Time	FORMAT (AVERAGE ('Appointment History'[Wait Time (Minutes)]), "0.00" & " min")	Average patient wait time
18. Peak Demand Hour (Busiest Hours)	MAXX (FILTER (_Table, [Total Appointments] = _MAX), Appointments[Hour Window])	Returns the busiest hour window

19. Appts MoM %	<code>DIVIDE([Total Appointments] - Appts_Prev_Month, Appts_Prev_Month)</code>	Month-over-month appointment growth
20. _2024_Appts	<code>CALCULATE([Total Appointments], 'Calendar Table'[Year]=2024)</code>	Total appointments in 2024
21. _2025_Appts	<code>CALCULATE([Total Appointments], 'Calendar Table'[Year]=2025)</code>	Total appointments in 2025
22. YoY (2024 V 2025)	<code>DIVIDE([_2025_Appts] - [_2024_Appts], [_2024_Appts])</code>	Year-over-year growth, 2024 vs 2025

6. Report Pages & Visualizations

6.1 Healthcare Appointment Insights Dashboard

6.1.1 Dashboard Header (Text Card)

Text Card Configuration

Property	Configuration
Title Text	Healthcare Appointment Insights
Title Font	Segoe UI, 20pt, Black, Bold
Subtitle Font	Segoe UI, 11pt, Black, Bold

6.1.2 Navigation Buttons

Navigation Buttons Configuration

Property	Configuration
Count	2 buttons
Sizes	60 x 150px
Positions	590 x 0px and 760 x 0px
Button Text Font	Segoe UI, 11pt, Bold

6.1.3 Slicers

Branch Slicer

Property	Configuration
Size (H x W)	60 x 191px
Position	1040 x 15px
Field	Branches [BranchName]
Header Font	DIN, 11pt, White
Value Font	Segoe UI, 8pt, Black, Bold

Visit Type Slicer

Property	Configuration
Size (H x W)	60 x 113px
Position	1251 x 15px

Field	VisitType [description]
Header Font	DIN, 11pt, White
Value Font	Segoe UI, 8pt, Black

Year Slicer

Property	Configuration
Size (H x W)	60 x 113px
Position	1384 x 15px
Field	Calendar Table [Year]
Header Font	DIN, 11pt, White
Value Font	Segoe UI, 8pt, Black

6.1.4 KPI Cards

Five KPI cards highlight key performance indicators: Total Appointments, Active Patients, Attendance Rate, Cancelled Appointments, and Average Wait Time.

Visual Configuration

Property	Configuration
Visual Type	Card visual (one per KPI)
Size (H x W)	130 x 146px
Position	Aligned horizontally starting at X = 140px, Y = 20px
Assigned Measures	[Total Appointments], [Patients Seen], [Attendance Rate], [Cancelled Appointments], [Avg Wait Time]

Card Styling

Property	Configuration
Background Colour	#FFFFFF (White)
Accent Bar Colour	#2E86C1
Accent Bar Position	Top
Accent Bar Width	7px

Callout — Category Label

Property	Configuration
Font Family	Segoe UI

Font Size	12pt
Font Colour	#444444

Callout — Value

Property	Configuration
Font Family	Segoe UI Semibold
Font Size	22pt
Bold	Enabled

Value Font Colour by KPI

KPI	Font Color
Total Appointments	#1A5276
Active Patients	#1A5276
Cancelled Appointments	#C0392B
Average Wait Time	#7D6608

Attendance Rate — Conditional Formatting

The Attendance Rate card uses dynamic font colouring based on performance thresholds:

Threshold	Color
Less than 52%	#C0392B (Red)
52% to less than 55%	#D4AC0D (Amber)
55% or greater	#1E8449 (Green)

- Custom icons/images were added to all five KPI cards to improve visual recognition and user experience.

6.1.5 Charts

Appointment Status Breakdown (Donut Chart)

Property	Configuration
Size (H x W)	350 x 473px
Legend Field	Appointment Status [description]
Values Field	Total Appointments (measure)
Data Labels	On — Outside, All Detail Labels, Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic

Subtitle	Segoe UI, 10pt, #444444
----------	-------------------------

Total Appointments (Name Card)

Property	Configuration
Size (H x W)	75 x 143px
Measure	Total Appointments
Font	Segoe UI Semibold, 25pt, Black, Bold

Referral vs Non-Referral Visits (Donut Chart)

Property	Configuration
Size (H x W)	350 x 473px
Legend Field	Appointments [IsReferral]
Values Field	Total Appointments (measure)
Data Labels	On — Outside, All Detail Labels, Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444

Appointment Demand by Time and Day (Clustered Column Chart)

Property	Configuration
Size (H x W)	350 x 473px
X-Axis Fields	Appointments [Hour Range], Appointments [Hour]
Y-Axis Field	Total Appointments (measure)
X-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Appointments by Department (Stacked Bar Chart)

Property	Configuration
Size (H x W)	350 x 473px
X-Axis Field	Total Appointments (measure)
Y-Axis Field	Departments [DepartmentTitle]

Tooltips	[Attendance Rate], [Cancelled %], [Referral Rate]
Y-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Branch Comparison (Stacked Column Chart)

Property	Configuration
Size (H x W)	350 x 473px
X-Axis Field	Branches [BranchName]
Y-Axis Field	Total Appointments (measure)
Tooltips	[Attendance Rate], [Avg Wait Time]
X-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Top Cancellation Reasons (Stacked Bar Chart)

Property	Configuration
Size (H x W)	350 x 473px
X-Axis Field	Total Appointments (measure)
Y-Axis Field	Appointments [CancellationReason]
Y-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Doctor Performance (Table Visual)

Visual Configuration

Property	Configuration
----------	---------------

Size (H x W)	350 x 890px
Columns Field	Doctors [FullName]
Measures	[Total Appointments], [Completed Appointments], [Attended Appointments], [Attendance Rate], [No Show %], [Cancelled %], [Avg Wait Time]
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Values	Segoe UI, 11pt, #1C2833, Bold; alternating row colours #FFFFFF / #EAF0F6
Column Headers	Segoe UI, 9pt, White text on #1A5276 background

Doctor Performance — Conditional Formatting (Cell Elements)

Font colour conditional formatting was applied to highlight performance metrics based on predefined thresholds.

Attendance Rate	No Show %	Cancelled %
< 50%: #C0392B (Red)	< 5%: #1E8449 (Green)	< 5%: #1E8449 (Green)
50–58%: #D4AC0D (Amber)	5–10%: #D4AC0D (Amber)	5–8%: #D4AC0D (Amber)
≥ 58%: #1E8449 (Green)	> 10%: #C0392B (Red)	> 8%: #C0392B (Red)

No Show by Department (Stacked Bar Chart)

Property	Configuration
Size (H x W)	350 x 550px
X-Axis Field	No Show % (measure)
Y-Axis Field	Departments [DepartmentTitle]
Tooltips	[Total Appointments], [No Show Appointments]
Y-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

6.2 Healthcare Appointment Trends Dashboard

6.2.1 Dashboard Header (Text Card)

Text Card Configuration

Property	Configuration
Title Text	Healthcare Appointment Trends
Title Font	Segoe UI, 20pt, Black, Bold
Subtitle Font	Segoe UI, 11pt, Black, Bold

6.2.2 Navigation Buttons

Navigation Buttons Configuration

Property	Configuration
Count	2 buttons
Sizes	60 x 150px
Positions	590 x 0px and 760 x 0px
Button Text Font	Segoe UI, 11pt, Bold

6.2.3 Slicers

Branch Slicer

Property	Configuration
Size (H x W)	60 x 185px
Position	1040 x 15px
Field	Branches [BranchName]
Header Font	DIN, 11pt, White
Value Font	Segoe UI, 8pt, Black, Bold

Appointment Type Slicer

Property	Configuration
Size (H x W)	60 x 110px
Position	1245 x 15px
Field	Added Manually[description]
Header Font	DIN, 11pt, White
Value Font	Segoe UI, 8pt, Black

Department Slicer

Property	Configuration
Size (H x W)	60 x 123px
Position	1375 x 15px
Field	Departments [DepartmentTitle]
Header Font	DIN, 11pt, White
Value Font	Segoe UI, 8pt, Black

6.2.4 KPI Cards

Five KPI cards highlight key performance indicators: Returning Patients %, Referral Rate %, Follow Up Visits, New Patient Visits, and Busiest Hours (Peak Demand Hour).

Visual Configuration

Property	Configuration
Visual Type	Card visual (one per KPI)
Size (H x W)	130 x 146px
Position	Aligned horizontally starting at X = 140px, Y = 20px
Assigned Measures	[Returning Patients %], [Follow Up Visits], [New Patient Visits], [Referral Rate], [Peak Demand Hour]

Card Styling

Property	Configuration
Background Colour	#FFFFFF (White)
Accent Bar Colour	#2E86C1
Accent Bar Position	Top
Accent Bar Width	7px

Callout — Category Label

Property	Configuration
Font Family	Segoe UI
Font Size	12pt
Font Colour	#444444

Callout — Value

Property	Configuration
Font Family	Segoe UI Semibold
Font Size	22pt
Bold	Enabled

Value Font Colour by KPI

KPI	Font Color
Returning Patients %	#1A5276
Follow Up Visits	#1A5276
New Patient Visits	#1A5276
Busiest Hours	#7D6608

Referral Rate — Conditional Formatting

The Referral Rate card uses dynamic font colouring based on performance thresholds:

Threshold	Color
Less than 47%	#C0392B (Red)
47% to less than 52%	#D4AC0D (Amber)
52% or greater	#1E8449 (Green)

- Custom icons/images were added to all five KPI cards to improve visual recognition and user experience.

6.2.5 Charts

Referral Rate Trend (Line Chart)

Property	Configuration
Size (H x W)	350 x 960px
X-Axis Field	Calendar Table [Month Name]
Y-Axis Field	Referral Rate (measure)
Legend Field	Calendar Table [Year]
Axis Titles / Y Values	Off
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Top 5 Fastest-Growing Departments — 2025 vs 2024 (Stacked Column Chart)

Property	Configuration
Size (H x W)	350 x 480px
X-Axis Field	Departments [DepartmentTitle]
Y-Axis Field	YoY (2024 V 2025) (measure)
Tooltips	[_2024_Appts], [_2025_Appts]
X-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Visit Type Trends (Line Chart)

Property	Configuration
Size (H x W)	350 x 1460px
X-Axis Fields	Calendar Table [Year], Calendar Table [Month Name]
Y-Axis Field	Total Appointments (measure)
Small Multiples Field	VisitType[description]
Axis Titles / Y Values	Off
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Appointment Monthly Growth Pattern % (Stacked Column Chart)

Property	Configuration
Size (H x W)	350 x 750px
X-Axis Fields	Calendar Table [Year], Calendar Table [QuarterName], Calendar Table [MonthName]
Y-Axis Field	Appts MoM % (measure)
Legend Field	Total Appointments (measure)
X-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold

Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled

Cancellation Trend (Stacked Column Chart)

Property	Configuration
Size (H x W)	350 x 690px
X-Axis Fields	Calendar Table [Year], Calendar Table [MonthName]
Y-Axis Field	Cancelled Appointments (measure)
Tooltips	[Total Appointments], [Cancelled %]
X-Axis Values	On
Data Labels	On — Segoe UI 9pt Black Bold
Title	DIN, 14pt, Black, Bold Italic
Subtitle	Segoe UI, 10pt, #444444
Header Icons / Tooltips	Enabled
